

## ENVIRONMENTALLY SENSITIVE AREAS

***Areas marked as Environmentally Sensitive Areas are Lateral Hazards but may be treated as rough.***

Environmentally Sensitive Areas: Carts are not permitted. You may walk through but watch for snakes. All rules applied to the rough will apply here. You may not stand on or bend plants to improve your lie. You may ground your club. There is no penalty for hitting out of the rough.

**Lateral Hazards:**

**If your ball is lost, or unplayable, you may drop your ball within two club lengths of where your ball entered the hazard, no closer to the hole, but must take a one stroke penalty for the drop.**
